DHAVAL MAKWANA

Web Developer

ABOUT ME

Hi, my name is Dhaval Makwana. I am a Computer Engineering student at Smt. Shantaben Haribhai Gajera Engineering College, Amreli. I am a web development enthusiast. I like creating good User interfaces.

EXPERIENCE

React Intern - InfoLabZ Ahmedabad

In this internship, we work on dynamic webpages design. React is the most popular JavaScript framework. In this internship, we work on some live APIs to create a real-time dynamic web page. In order to fetch some live data, we use some concepts of HTTP (request-response mechanism) and ES6.

PROJECTS

News web app using React

This is a news app made using ReactJS and Bootstrap. In this project, I have fetched data from in-shorts API and shown it in this app, you can see news like sports, entertainment, science, start-ups, etc.
URL:- https://dhavalmakwana1439.github.io/react-news-app/

Todo List using React

This Todo web app is created using ReactJS. I have usedFirebase as Back-End and React and Tailwind CSS for Front-End.
URL:- https://dhavalmakwana1439.github.io/react-todo-app/

Portfolio Website

This Portfolio website web built using HTML, CSS, JavaScript, and Tailwind CSS
URL:- https://dhaval-makwana.netlify.app/
